- Kdenlive Theatre [1]

I work at a movie theater in Riverside, California. Every year we have a mini film contest where we are givin a subject and this year it was a parody sequel of a 2012 film. We had about 2 weeks to shoot and edit. I acted as the Director and Editor. It was awesome to see my work on the big screen. Kdenlive came through. I worked with two different cameras and when we had a battery die I ended up getting footage on a friend iPhone. Everything merged together perfectly.

We won 2nd place ($150 USD prize) and I won best director.

Thank you development team for making such an awesome, full featured, and professional editor.
